Ham Radio Phone BBS List 3/88

The following is a list of some telephone BBS's that support Amateur Radio. Some of these are strictly for hams, while others support "SIG's" (special interest groups) for hams or have radio-related files or message sections.

If you call one of these BBS's and find nothing to indicate it's relationship to Ham Radio or find that it has been disconnected, let me know so I can archive it and clean up the list. I can't gaurantee the accuracy of this list, but I do strive to keep it as up-to-date as possible. Please send any updates, changes, or comments to me. 73, Tom Brown KA2UGQ.

Packet: KA2UGQ @ KA2UGQ-4 (Node>NNJ, Zip:07922)  
UUCP: ..!ihnp4!mtune!ky2d-2!ka2ugq  
ARPA: mtune!ky2d-2!ka2ugq@rutgers.ARPA  
ICBM: 40 40' 47" N, 74 25' 03" W

Baud rates are as follows: 3=300 baud, B=1200 baud (Bell 212A),  
C=2400 baud (CCITT V.22 bis)

A symbol after the phone number indicates the status of the bulletin board since the last verification. The symbols are as follows: '\*' - verified OK; '+' - probably OK (line busy when called); '?' - questionable. If there is no symbol after the phone number, it has probably not been checked out yet.

NEW numbers (since 2/88 list) are listed with a ':' after the phone number.
